

TECHNICAL DATA SHEET

Trade Name:	DEO ZR 77		
INCI:	Zinc Ricinolate; Triethanolamine; Dipropylene Glycol; Lactic Acid		
Cas. No:	13040-19-2; 102-71-6; 25265-71-8; 50-21-5		
EINECS:	235-911-4; 203-049-8; 246-770-3; 200-018-0	Article No:	241011

ITEM	STANDARD
Appearance	Amber colored liquid
Iodine value	62,00-78,00 g I/100g
pH value 1%	7,20-8,20
Water content	< = 1,50 %
Zinc content	6,40-6,80 %

Product Description:

Deo ZR 77 is an efficient deodorant active composed of zinc ricinolate with a high alcohol content. It is suitable for use in clear sprays (with up to 30% water), as well as sticks and roll-ons.

Application:

It is widely used for Odour neutralizer and Deodorant agents.

Storage:

Deo ZR 77 should be kept at room temperature. If stored cooler, it may become cloudy and more viscous, but this has no impact on its performance. When heated to about 60 °C, the product clears up again, which can take up to 12 hours.

Dosage:

1.5 -3.0%

Shelf time:

2 years after production (Unopened packing)
