TECHNICAL DATA SHEET

Product Description:

Skinfeel V is a natural texture enhancer and oil gelling agent that helps you obtain the desired consistency without altering the sensory characteristics. Ideal for pure oil systems, it enables the creation of smooth, creamy oil-gel textures.

In W/O emulsions, **Skinfeel V** stabilizes and thickens the oil phase effectively. It also supports the development of solid formats such as sticks, balms, and bars.

Produced using RSPO-certified sustainable palm oil from various certified sources, with full segregation from conventional palm oil along the entire supply chain.
