

Technical Data Sheet SAT-ROH-1% Roharol (Totarol)

Trade Name	SAT-ROH-1%
Common Name	Roharol extract liquid
Chemical Name	(+)-8,11,13-totara-trien-13-ol
Synonyms	Totarol
CAS No.	511-15-9
EINECS No.	
Empirical Formula	C ₂₀ H ₃₀ O
Molecular Structure	
Characteristics	Reddish-brown liquid
Solubility	soluble in oil, ethanol, and any oil-based products.
Specification	Cosmetic grade
Category	Skin Care
Functions	Antioxidant, to inhibit fat peroxidation
Features	Very effective in the treatment of acne. It successfully fights all types of acne on the face, chest and back. It helps reduce the appearance of redness associated with acne and keeps pores clean, clear and smooth as never before.
Applications	Cosmetics
Typical Dosage	1% -5%
Packing	25kg plastic bucket
Transport	Non-hazardous cargo (IMO/IATA)
